Quiltricks NEWS

Stimulating imaginations of quilt tricksters everywhere

Quiltrick #72: When matching points while piecing, place the fabric right sides together and place a pin straight through the tip of the points you want to match. Pin the fabric on either side and remove the first pin. It will help you get perfect points when you sew the first time you try.

Happy New Year! And what better time to get back into the sewing room and begin a new project. I went through my stash and found a lovely red fabric to start with, but, of course, had to go shopping for the rest of my fabrics. Maybe I just need a better stash? I decided to make a new version of my Kristals, and below is a picture of what I've done so far – along with a picture of a scrappy completed Kristals. What are you working on this new year?

Kristals: then and now 😊
