# Quiltricks NEWS

*Stimulating imaginations of quilt tricksters everywhere*

**Quiltrick #66:** Two tricks to prevent knots in your applique thread: 1) Cut your working thread no longer than 18 inches long and 2) If you still are getting knots, run your thread through beeswax. It will slightly coat your thread and make it behave. ☺

We have a full calendar of quilt shows coming up. Along with lots of travel, I will also be teaching applique at the March 25-28 Lancaster Quilt Show at the Double Tree. This is always a fun class as we practice inner and outer points, curves and circles. Contact [www.thelancasterquiltshow.com](http://www.thelancasterquiltshow.com) to sign up for the class (and other classes as well!) And contact me if you'd like me to come teach at your guild.

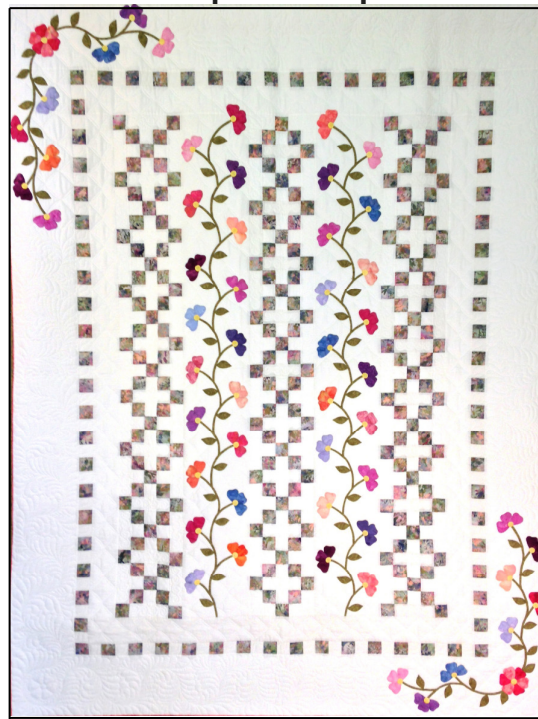

We were sad to learn that the Hershey, PA show was cancelled. But another new show is starting in Wooster, Ohio and it has already generated a lot of excitement from folks. We are planning to be there, so I hope you'll give it a try as well.

Try sewing for 30 minutes a day – you'll find you get a lot accomplished in just a few days!
